DISTRICT VISION STATEMENT

The Canandaigua City School District will lead and inspire a community of learners to fulfill their academic and creative potential.

The Board of Education of the Canandaigua City School District (“Board”) is committed to providing a safe and orderly school environment where students may receive, and District personnel may deliver quality educational services without disruption or interference. Responsible behavior by students, teachers, other District personnel, parents, and other visitors is essential to achieving this goal.

The District has a long-standing set of expectations for conduct on school property, at school functions, and with District computer systems. These expectations are based on the principles:

- Respect leads to Civility
- Responsibility leads to Accountability
- Honesty leads to Integrity
- Kindness leads to Compassion
- Healthy Choices lead to Healthy Living
- Effort leads to Perseverance

Tolerance, as it relates to diversity, is also an important District focus.

The Board recognizes the need to clearly define these expectations for acceptable conduct on school property, at school functions, and with District resources, identify potential consequences of unacceptable conduct, and ensure that discipline, when necessary, is administered promptly and fairly. Therefore, the Board adopts this Code of Conduct (“Code”). This Code has been developed in collaboration with teachers, Administrators, other school service professionals, students, parents, and community members.

VI. PROHIBITED STUDENT CONDUCT

The Board expects students to conduct themselves in an appropriate and civil manner, with proper regard for the rights and welfare of other students, District personnel, and other members of the school community, and for the care of school facilities and equipment. The District may discipline a student whose actions were unintentional yet violate the Code of Conduct.

Typically, progressive discipline will be utilized starting with a low level of discipline and progressing to suspension from school for various periods of time. However, the severity of misbehavior and the student's total disciplinary record will impact any decision regarding discipline.

The best discipline is self-imposed, and students must learn to assume and accept responsibility for their own behavior, as well as the consequences of their misbehavior. District personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline.

The Board recognizes the need to make its expectations for student conduct while on school property or engaged in a school function specific and clear. The rules of conduct listed below are intended to meet that need and focus on safety and respect for the rights and property of others.

- Coats or outerwear worn inside the building (except for religious or medical purposes)
- Sunglasses (except for medical reasons)
- Tank tops, camisoles, halter or tube tops, one-shoulder tops, and low-cut tops (unless worn with another top that provides appropriate coverage)

- Strapless dresses or blouses
- See-through clothing
- Dresses, skirts, shorts as outlined in specific handbooks
- Display of undergarments (bras, boxers, underwear, etc.)
- Mid-cut shirts/tops that reveal the midriff
- Hazardous jewelry, including but not limited to spiked jewelry or wallet chains
- Footwear that has wheels or other devices allowing sliding or rolling
- Perfume or cologne that has a negative impact on others
- Extremely revealing or excessively tight clothing such as dresses, shirts and pants
- Lack of footwear

This list is not meant to be inclusive. If the Administrator believes student dress is inappropriate the Administrator shall inform the student that his/her dress violates the student dress code and give specific reasons why the student dress interferes with the educational process. The District will not regulate the way students dress while in school or at school functions with either fashion or taste as the sole criterion; however, student dress may not be disruptive, conflict with the rights of others, or fail to meet health and safety standards.

Students who violate the student dress code shall be required to modify their appearance by covering or removing the offending item and, if necessary or practical, replacing it with an acceptable item. Any student who refuses to do so shall be subject to discipline, up to and including in-school suspension for the day. Any student who repeatedly fails to comply with the dress code shall be subject to further discipline, up to and including out-of-school suspension.

Each Building Principal shall be responsible for informing all students and their parents of the student dress code at the beginning of the school year and any revisions to the dress code made during the school year.

VIII. REPORTING VIOLATIONS OF THE CODE OF CONDUCT

Any student observing any individual possessing a weapon, alcohol or illegal substance on school property or a school function shall report this information immediately to any staff member, teacher, or administrator. Any weapons, alcohol, or illegal substances found shall be confiscated by the school administration followed by notification to the parent of the student involved and the appropriate disciplinary action taken, up to and including permanent suspension and referral for prosecution.

All students are expected to promptly report violations of the code of conduct to a teacher, guidance counselor, the Building Principal or his or her designee. All district staff who are authorized to impose disciplinary sanctions are expected to do so in a prompt, fair and lawful manner. District staff who are not authorized to impose disciplinary sanctions are expected to promptly report violations of the code of conduct to their supervisor, who shall in turn impose an appropriate disciplinary sanction, if so authorized, or refer the matter to a staff member who is authorized to impose an appropriate sanction.

The principal must notify the appropriate local law enforcement agency of those Code violations that a principal believes may constitute a crime and substantially affect the order or security of a school as soon as practical, but in no event later than the close of business the day the principal learns of the violation.

IX. DISCIPLINARY PROCEDURES AND CONSEQUENCES

Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that is reasonable and impartial. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline.

Disciplinary action, when necessary, will be firm, fair, and consistent so as to be the most effective in changing student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary penalties will consider the following:

1. The student's age.
2. The nature of the offense and the circumstances which led to the offense.
3. The student's prior disciplinary record.
4. The effectiveness of other forms of discipline.
5. Information from parents, teachers and/or others, as appropriate.
6. The adverse impact on others and/or the learning environment.
7. Other extenuating circumstances.

As a general rule, discipline will be progressive. This means that a student's first violation will usually merit a lighter penalty than subsequent violations.

If the conduct of a student is related to a disability or suspected disability, the student shall be referred to the Committee on Special Education and discipline, if warranted, shall be administered in a consistent fashion with the separate requirements of this Code for disciplining students with a disability.

A. Consequences

Students who are found to have violated the District's Code may be subject to the following penalties, either alone or in combination with one another. The school personnel identified after each penalty are authorized to impose the consequences, consistent with the student's right to due process.

1. Verbal warning – any member of the District staff
2. Disciplinary referral – bus driver, hall and lunch monitor, teacher, administrator, paraprofessional, administrative aide
3. Written notification to parent – teachers, and administrators
4. Detention – teacher, administrator, superintendent, administrative aide
5. Suspension from transportation – administrator, superintendent, administrative aide
6. Suspension from athletic participation – coach, administrator, superintendent

7. Suspension from social or extra-curricular activities – activity director, club advisor, administrator, superintendent
8. Suspension from other privileges – administrator, superintendent
9. Suspension from District computer resources – administrator, superintendent
10. In-school suspension – administrator, superintendent
11. In-district suspension – principal, superintendent
12. Removal from classroom – teacher, administrator, superintendent
13. Short-term (five days or fewer) suspension from school – principal, superintendent, board
14. Long-term (more than five days) suspension from school – superintendent, board
15. Permanent suspension from school – superintendent, board

The district may condition a student’s suspension revocation or early return from suspension on the student’s voluntary participation in counseling or specialized classes, including anger management or dispute resolution. The district may also recommend counseling in circumstances where a student may benefit from such services, separate from any disciplinary proceeding.

B. Procedures

The amount of due process a student is entitled to before a penalty is imposed will depend on the type of penalty being imposed. In all cases, regardless of the penalty imposed, the school personnel authorized to impose the penalty must let the student know what misconduct the student is alleged to have committed, and must investigate the facts surrounding the alleged misconduct. All students will have an opportunity to present their version of the facts to the school personnel imposing the disciplinary penalty in connection with the imposition of the penalty.

Students who are to be given penalties other than a verbal warning, written warning or written notification to their parents are entitled to additional rights before the penalty is imposed. These additional penalty are explained below.

1. Detention

If there is no parental objection and the student has appropriate transportation home, teachers, administrators and the Superintendent may use after-school detention as a penalty for student misconduct in situations where removal from the classroom or suspension would be inappropriate.

2. Suspension from transportation

If a student does not conduct himself/herself properly on a bus, the bus driver is expected to bring such misconduct to the administrator’s attention. Students who become a serious disciplinary problem may have their riding privileges suspended by the administrator or the Superintendent. In such cases, the student’s parent will become responsible for seeing that his or her child gets to and from school safely. Should the suspension from transportation amount to a

suspension from attendance for a student within the compulsory ages of attendance, the District will make appropriate arrangements to provide for the student's education, or alternative transportation.

A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law § 3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the principal to discuss the conduct and the penalty involved.

3. Suspension from athletic participation, extracurricular activities and other privileges

A student subjected to a suspension from athletic participation, extra-curricular activities or other privileges is not entitled to a full hearing pursuant to Education Law § 3214. However, the student and student's parent will be provided with a reasonable opportunity for an informal conference with the District official imposing the suspension to discuss the conduct and the penalty involved.

4. In-School Suspension

The Board recognizes that the school must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the Board authorizes the principal and the Superintendent to place students who would otherwise be suspended from school as the result of a Code violation in "in-school suspension." "In-school suspension" is the temporary removal of students from the classroom and their placement in another area of the school building designated for such a suspension where students will receive substantially equivalent, alternative education.

A student subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law § 3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the District official imposing the in-school suspension to discuss the conduct and the penalty involved.

5. In-District Suspension

The Board recognizes that the school must balance the need of students to attend school and order in the classroom to establish an environment conducive to learning. As such, the Board authorizes building Principals and the Superintendent to place students who would otherwise be suspended from school as a result of a Code violation in "In-District Suspension". "In-District Suspension" is the temporary removal of a student from the classroom and their placement in a school maintained alternative location designated for such suspension where students will receive substantially equivalent, alternative education.

6. Teacher Removal of Disruptive Students

A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances, the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom management techniques. These classroom management techniques may include may include, but are not limited to:

- a. short-term "timeout" in an alternative setting;
- b. sending a student to the administrator's office for the remainder of the class time only; or
- c. sending a student to a guidance counselor or other District staff member for counseling.

Time-honored classroom management techniques such as those identified above do not constitute disciplinary removals for purposes of this Code.

On occasion, a student's behavior may disrupt classroom learning. For purposes of this Code, a disruptive student is a student who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom. A substantial disruption of the educational process or substantial interference with a teacher's authority occurs when a student demonstrates a persistent unwillingness to comply with the teacher's instructions or repeatedly violates the teacher's classroom behavior rules. A classroom teacher may remove a disruptive student from class for up to the equivalent of two class days. The removal from class applies to the class of the removing teacher only.

If the student does not pose a danger or ongoing threat of disruption to the academic process, the teacher must provide the student, before the student is removed, with an explanation for why he or she is being removed. The student must also be given the opportunity to present his or her version of the relevant events. Only after this informal discussion may a teacher remove a student from class.

If the student does pose a danger or ongoing threat of disruption, the teacher may order the student to be removed immediately. The teacher must, however, explain to the student why he or she was removed from the classroom and give the student a chance to present his or her version of the relevant events within one full school day.

The teacher must complete a District-established electronic referral and may meet with the principal or assistant principal to discuss the referral. The teacher will contact the parent as soon as possible.

Within 24 hours of the student's removal, the principal or another administrator designated by the principal must notify the student's parent, in writing, that the student has been removed from the class and why. The notice must also inform the parent that he/she has the right, upon request, to meet informally with the principal or the principal's designee to discuss the reasons for the removal and behavior modification(s) to remedy the cause for the removal. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice by the day after the student's removal at the

last known address for the parent. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents.

If at the informal meeting the student denies the charges, the principal or the principal's designee must explain why the student was removed and give the student and the student's parents a chance to present the student's version of the relevant events. The informal meeting must be held within two school days of the student's removal. The timing of the informal meeting may be extended by mutual agreement of the parent, teacher, and Principal. The attendance of the teacher at the informal meeting will be at the discretion of the Principal.

The principal or the principal's designee may overturn the removal of the student from class if the principal finds any one of the following:

1. The charges against the student are not supported by substantial evidence.
2. The student's removal is otherwise in violation of law.
3. The conduct warrants suspension from school pursuant to Education Law § 3214 and a suspension will be imposed.

The principal or his/her designee must make a determination as to whether to overturn the removal before the close of business on the day of the informal hearing. No student removed from the classroom by the classroom teacher will be permitted to return to the classroom until the Principal makes a final determination, or the period of removal expires, whichever is less. At the teacher's discretion, he or she may rescind the removal prior to the expiration of the full period of removal.

Any disruptive student removed from the classroom by the classroom teacher shall be offered continued educational programming and activities until he or she is permitted to return to the classroom.

Each teacher must document all cases of removal of students from his/her class. The administrator must keep a log of all removals of students from class. Removal of a student with a disability may, under certain circumstances, constitute a change in the student's placement. Accordingly, no teacher may remove a student with a disability from his/her class until he/she has verified with the building administrator that the removal will not violate the student's rights under state or federal law or regulation.

Nothing in this section of the Code abridges the customary right or responsibility of a Principal to suspend a student. Further, nothing in this Code abridges the customary right and responsibility of a teacher to manage student behavior in the classroom. Short-term, time-honored classroom management techniques such as "time out" in an elementary classroom or in an administrator's office or sending students briefly into the hallway are not considered removals from class. The removal process should not interfere with good classroom management.

7. Suspension from School

Suspension from school is a severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent or disruptive, or whose conduct otherwise endangers the safety, morals, health or welfare of self or others. The Board retains its authority to suspend students, but places primary responsibility for the suspension of students with the Superintendent and the principals.

The Superintendent or principal, upon receiving a referral that may warrant a suspension or when processing a case for suspension, shall gather the facts relevant to the matter and record them for subsequent presentation, if necessary.

a. Short Term (five days or fewer) Suspension from School

When the principal or Superintendent (referred to as the “suspending authority”) proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law § 3214(3), the suspending authority must immediately notify the student orally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student’s parents in writing that the student may be suspended from the school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision to propose suspension at the last known address for the parents. Notice should also be provided by telephone or e-mail.

The notice shall provide a description of the charges against the student and the incident for which suspension is proposed and shall inform the parent of the right to request an immediate informal conference with the principal. Both the notice and informal conference shall be in the dominant language or mode of communication used by the parents.

The notice and opportunity for an informal conference shall take place before the student is suspended unless in the opinion of the principal or Superintendent the student’s presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student’s presence does pose such a danger or threat of distraction, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

After the conference, the Suspending Authority shall promptly advise the parents in writing of his or her decision. The Suspending Authority shall advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the Superintendent (if suspension is by the principal), or if the suspension is by the Superintendent, to the Board of Education via the District Clerk, within 10 business days of the date of the decision, unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the Commissioner of Education within 30 days of the decision.

b. Long Term (more than 5 days) Suspension from School

When the principal or Superintendent determines that a suspension for more than five days may be warranted, he or she shall give reasonable notice to the student and the student's parents of their right to a fair hearing. At the hearing the student shall have the right to be represented by counsel, the right to question witnesses against him or her and the right to present witnesses and other evidence on his or her behalf.

The Superintendent shall personally hear and determine the proceeding or may, in his or her decision, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the Superintendent. The report of the hearing officer shall be advisory only, and the Superintendent may accept all or any part thereof.

An appeal of the decision of the Superintendent may be made to the Board that will make its decision based solely upon the record before it. All appeals to the Board must be in writing and submitted to the District Clerk within thirty (30) business days of the date of the Superintendent's decision, unless the parents can show that extraordinary circumstances precluded them from doing so. The Board may adopt in whole or in part the decision of the Superintendent. Final decisions of the Board may be appealed to the Commissioner of Education within 30 days of the decision.

c. Permanent Suspension

Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life-threatening danger to the safety and well-being of other students, school personnel or any other person lawfully on school property or attending a school function.

d. Procedure After Suspension

The Board may condition a student's early return from a suspension on the student's voluntary participation in counseling or specialized classes, such as anger management or dispute resolution. The Board retains discretion in offering this opportunity. If and when the student and/or parent/guardian agrees to this option, the terms and conditions shall be specified in writing.

C. Minimum Periods of Suspension

1. Students who bring a weapon to school or possess a weapon at school

Any student, other than a student with a disability, found guilty of bringing a weapon onto school property, or possessing a weapon on school property, will be subjected to suspension from school for at least one calendar year. Before being suspended, the student will have an

opportunity for a hearing pursuant to Education Law § 3214. The Superintendent has the authority to modify the one-year suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the following:

- a. The student's age.
- b. The student's grade in school.
- c. The student's prior disciplinary record.
- d. The Superintendent's belief that other forms of discipline may be more effective.
- e. Input from parents, teachers and/or others.
- f. Other extenuating circumstances.

A student with a disability may be suspended only in accordance with the requirements of state and federal law.

2. Students who commit violent acts other than bringing a weapon to school or possessing a weapon at school

Any student, other than a student with a disability, who is found to have committed a violent act, other than bringing a weapon onto school property or possessing a weapon at school, shall be subject to suspension from school for at least five days. If the proposed penalty is the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The principal or Superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the consequence, the principal or Superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

3. Students who are repeatedly substantially disruptive of the educational process or who substantially interfere with the teacher's authority over the classroom

Any student, other than a student with a disability, who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom will be subject to a suspension from school for five or more days pending review by the principal. For purposes of this code of conduct, students who "repeatedly are substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by a teacher(s) pursuant to Education Law §3214(3-a) and this code on four or more occasions during a semester, or three or more occasions during a trimester. If the proposed penalty is a suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The Superintendent has the authority to modify the suspension on a case-by-case basis to be consistent with any other state and federal law. In deciding whether to modify the penalty, the Superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

D. **Referrals**

1. **Counseling**

The Counseling Office shall handle all referrals of students to counseling.

2. **PINS Petitions**

The District may file a PINS (person in need of supervision) petition in Family Court on any student under the age of 18 who demonstrates that he or she requires supervision and treatment by:

- a. Being habitually truant and not attending school as required by Part One of Article 65 of the Education Law.
- b. Engaging in an ongoing or continual course of conduct which makes the student ungovernable, or habitually disobedient and beyond the lawful control of the school.
- c. Knowingly and unlawfully possesses marijuana in violation of Penal Law § 221.05. A single violation of § 221.05 will be a sufficient basis for filing a PINS petition.

3. **Juvenile Delinquents and Juvenile Offenders**

The Superintendent is required to refer the following students to appropriate law enforcement for a juvenile delinquency proceeding before the Family Court:

- a. Any student under the age of 16 who is found to have brought a weapon to school, or
- b. Any student 14 or 15 years old who qualified for juvenile offender status under the Criminal Procedures Law § 1.20 (42).

The Superintendent is required to refer any student age 16 and older or any student 14 or 15 years old who qualifies for juvenile offender status to the appropriate law enforcement authorities.

4. **Child Protective Services**

X. ALTERNATIVE INSTRUCTION

When a student of any age is removed from a class by a teacher or a student of compulsory attendance age is suspended from school pursuant to Education Law § 3214, the District will take immediate steps to provide alternative means of instruction for the student. The Board of Education expects students, administrators, teachers and parents to make every effort to maintain student academic progress in the event of removal or suspension, and support student re-entry to the classroom at the conclusion of the disciplinary action.

XI. DISCIPLINE OF STUDENTS WITH DISABILITIES

The Board recognizes that it may be necessary to suspend, remove or otherwise discipline students with disabilities to address disruptive or problem behavior. The Board also recognizes that students with disabilities are entitled to certain procedural protections whenever school authorities intend to impose discipline upon them. The Board is committed to ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations. Under certain conditions those protections extend, as well, to students not currently deemed to be a student with a disability but determined to be a student presumed to have a disability for discipline purposes.

This Code affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state law and regulations.

A. Definitions

For purposes of this portion of the code of conduct, and consistent with applicable law and regulations, the following definitions will apply:

1. *Behavioral intervention plan (BIP)* means a plan that is based on the results of a functional behavioral assessment and that, at a minimum, includes a description of the problem behavior, global and specific hypotheses as to why the problem behavior occurs, and intervention strategies that include positive behavioral supports and services to address the behavior.
2. *Controlled substance* means a drug or other substance abuse identified under schedule I, II, III, IV, or V in section 202(c) of the Controlled Substances Act (21 USC § 812(c)).
3. *Disciplinary change in placement* means a suspension or removal from a student's current educational placement that is either:
 - a. For more than 10 consecutive school days; or
 - b. For a period of 10 consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than 10 school days in a school year, because the student's behavior is substantially similar to the student's behavior in previous incidents that resulted in the series of removals, and because of such additional factors as the length of each suspension or removal, the total amount of time the student has been removed and the proximity of the suspensions or removals to one another.
4. *Illegal drug* means a controlled substance, but does not include a controlled substance legally possessed or used under the supervision of a licensed health-care professional, or a substance that is otherwise legally possessed or used under the authority of the Controlled Substances Act or under any other provision of federal law.
5. *Interim alternative educational setting (IAES)* means a temporary educational placement, other than the student's current placement at the time the behavior precipitating the IAES placement occurred. An IAES must allow a student to continue to receive educational

services that enable him or her to continue to participate in the general curriculum and progress toward meeting the goals set out in the student's individualized education program; as well as to receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications designed to address the behavior violation so that it does not recur.

6. *Manifestation review* means a review of the relationship between the student's disability and the behavior subject to disciplinary action required when the disciplinary action results in a disciplinary change of placement, and conducted in accordance with requirements set forth later in this policy.
7. *Manifestation team* means a district representative knowledgeable about the student and the interpretation of information about child behavior, the parent, and relevant members of the committee on special education as determined by the parent and the district.
8. *Removal* means a removal of a student with a disability for disciplinary reasons from his or her current educational placement, other than a suspension; and a change in the placement of a student with a disability to an IAES.
9. *School day* means any day, including a partial day, that students are in attendance at school for instructional purposes.
10. *Serious bodily injury* means bodily injury which involves a substantial risk of death, extreme physical pain, protracted obvious disfigurement or protracted loss or impairment of the function of a bodily member, organ or mental faculty.
11. *Student presumed to have a disability for discipline purposes* means a student who, under the conditions set forth later in this policy, the district is deemed to have had knowledge was a student with a disability before the behavior that precipitated the disciplinary action.
12. *Suspension* means a suspension pursuant to §3214 of New York's Education Law.
13. *Weapon* means the same as the term "dangerous weapon" under 18 USC §930(g)(2) which includes a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except a pocket knife with a blade of less than two and one-half inches in length.

B. Authority of School Personnel to Suspend or Remove Students with Disabilities

The Board, District Superintendent, Superintendent of Schools or a Building Principal with authority to suspend students under the Education Law may order the placement of a student with a disability into an IAES, another setting or suspension for a period not to exceed five consecutive school days.

The Superintendent may, directly or upon the recommendation of a designated hearing officer, order the placement of a student with a disability into an IAES, another setting or suspension for a period not to exceed ten consecutive school days inclusive of any period in which the student has been suspended or removed for the same behavior pursuant to the above paragraph, if the Superintendent determines that the student's behavior warrants the suspension. The Superintendent also may order additional suspensions of not more than ten consecutive school days in the same school year for separate incidents of misconduct, as long as the suspensions do not constitute a disciplinary change of placement.

In addition, the Superintendent may order the placement of a student with a disability into an IAES, another setting or suspension for a period in excess of ten consecutive school days if the manifestation team determines that the student's behavior was not a manifestation of the student's disability. In such an instance, the Superintendent may discipline the student in the same manner and for the same duration as a non-disabled student.

Furthermore, the Superintendent may, directly or upon the recommendation of a designated hearing officer, order the placement of a student with a disability to an IAES to be determined by the committee on special education for a period of up to 45 school days if the student either:

1. Carries or possesses a weapon to or at school, on school premises or to a school function, or
2. Knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school, on school premises or at a school function under the district's jurisdiction, or
3. Has inflicted serious bodily injury upon another person while at school, on school premises or at a school function under the district's jurisdiction.

The Superintendent may order the placement of a student with a disability to an IAES under such circumstances, whether or not the student's behavior is a manifestation of the student's disability. However, the committee on special education will determine the IAES.

C. Procedures for the Suspension or Removal of Students with Disabilities by School Personnel

1. In cases involving the suspension or removal of a student with a disability for a period of five consecutive school days or less, the student's parents or persons in parental relation to the student will be notified of the suspension and given an opportunity for an informal conference in accordance with the same procedures that apply to such short term suspensions of non-disabled students.
2. The suspension of students with disabilities for a period in excess of five school days will be subject to the same due process procedures applicable to non-disabled students, except that the student disciplinary hearing conducted by the Superintendent or a designated hearing officer shall be bifurcated into a guilt phase and a penalty phase. Upon a finding of guilt, the Superintendent or the designated hearing officer will await notification of the determination by the manifestation team as to whether the student's behavior was a manifestation of his or her disability. The penalty phase of the hearing may proceed after receipt of that notification. If the manifestation team determined that the behavior was not a manifestation of the student's disability, the student may be disciplined in the same manner as a non-disabled student, except that he or she will continue to receive services as set forth below. However, if the behavior was deemed a manifestation of the student's disability, the hearing will be dismissed, unless the behavior involved concerned weapons, illegal drugs or controlled substances, or the infliction of serious bodily injury, in which case the student may still be placed in an IAES.

D. **Limitation on Authority of School Personnel to Suspend or Remove Students with Disabilities**

The imposition of a suspension or removal by authorized school personnel may not result in a disciplinary change of placement of a student with a disability that is based on a pattern of suspensions or removals as set forth above in the Definitions section of this policy, unless:

1. The manifestation team determines that the student's behavior was not a manifestation of the student's disability, or
2. The student is removed to an IAES for behavior involving weapons, illegal drugs or controlled substances, or the infliction of serious bodily injury as set forth above.

School personnel will consider any unique circumstances on a case-by-case basis when determining whether a disciplinary change in placement is appropriate for a student with a disability who violates the district's code of conduct.

In addition, school personnel may not suspend or remove a student with a disability in excess of the amount of time that a non-disabled student would be suspended for the same behavior.

E. **Parental Notification of a Disciplinary Change of Placement**

The district will provide the parents of a student with a disability notice of any decision to make a removal that constitutes a disciplinary change of placement because of a violation of the student code of conduct. Such notice will be accompanied by a copy of the procedural safeguards notice.

F. **Authority of an Impartial Hearing Officer to Remove a Student with a Disability**

An impartial hearing officer may order the placement of a student with a disability to an IAES for up to 45 school days at a time if he or she determines that maintaining the current placement of the student is substantially likely to result in injury to the student or to others. This authority applies whether or not the student's behavior is a manifestation of the student's disability.

G. **Manifestation Review**

A review of the relationship between a student's disability and the behavior subject to disciplinary action to determine if the conduct is a manifestation of the student's disability will be made by the manifestation team immediately, if possible, but in no case later than 10 school days after a decision is made by:

1. The Superintendent to change the placement of a student to an IAES;
2. An impartial hearing officer to place a student in an IAES; or
3. The Board, the Superintendent, or Building Principal to impose a suspension that constitutes a disciplinary change in placement.

The manifestation team must determine that the student's conduct was a manifestation of the student's disability if it concludes that the conduct in question was either:

1. Caused by or had a direct or substantial relationship to the student's disability, or
2. The direct result of the district's failure to implement the student's individualized education program.

The manifestation team must base its determination on a review all relevant information in the student's file including the student's individualized education program, any teacher observations, and any relevant information provided by the parents.

If the manifestation team determines that the student's conduct is a manifestation of the student's disability, the district will:

1. Have the committee on special education conduct a functional behavioral assessment of the student and implement a behavioral intervention plan, unless the district had already done so prior to the behavior that resulted in the disciplinary change of placement occurred. However, if the student already has a behavioral intervention plan, the CSE will review the plan and its implementation, and modify it as necessary to address the behavior.
2. Return the student to the placement from which he or she was removed, unless the change in placement was to an IAES for conduct involving weapons, illegal drugs or controlled substances or the infliction of serious bodily injury, or the parents and the district agree to a change in placement as part of the modification of the behavioral intervention plan.

If the manifestation team determines that the conduct in question was the direct result of the district's failure to implement the student's individualized education program, the district will take immediate steps to remedy those deficiencies.

H. Services for Students with Disabilities during Periods of Suspension or Removal

Students with disabilities who are suspended or removed from their current educational setting in accordance with the provisions of this policy and applicable law and regulation will continue to receive services as follows:

1. During suspensions or removals of up to 10 school days in a school year that do not constitute a disciplinary change in placement, the district will provide alternative instruction to students with disabilities of compulsory attendance age on the same basis as non-disabled students. Students with disabilities who are not of compulsory attendance age will receive services during such periods of suspension or removal only to the same extent as non-disabled students of the same age would if similarly suspended.
2. During subsequent suspensions or removals of up to 10 school days that in the aggregate total more than 10 school days in a school year but do not constitute a disciplinary change in placement, the district will provide students with disabilities services necessary to

enable them to continue to participate in the general education curriculum and to progress toward meeting the goals set out in their respective individualized education program. School personnel, in consultation with at least one of the student's teachers, will determine the extent to which services are needed to comply with this requirement. In addition, during such periods of suspension or removal the district will also provide students with disabilities services necessary for them to receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications designed to address the behavior violation so that it does not recur.

3. During suspensions or removals in excess of 10 school days in a school year that constitute a disciplinary change in placement, including placement in an IAES for behavior involving weapons, illegal drugs or controlled substances, or the infliction of serious bodily injury, the district will provide students with disabilities services necessary to enable them to continue to participate in the general curriculum, to progress toward meeting the goals set out in their respective individualized education program, and to receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications designed to address the behavior violation so it does not recur. In such an instance, the committee on special education will determine the appropriate services to be provided.

I. **Students Presumed to Have a Disability for Discipline Purposes**

The parent of a student who is facing disciplinary action but who was not identified as a student with a disability at the time of misconduct has the right to invoke any of the protections set forth in this policy in accordance with applicable law and regulations, if the district is deemed to have had knowledge that the student was a student with a disability before the behavior precipitating disciplinary action occurred and the student is therefore a student presumed to have a disability for discipline purposes.

If it is claimed that the district had such knowledge, it will be the responsibility of the Superintendent, Building Principal or other authorized school official imposing the suspension or removal in question for determining whether the student is a student presumed to have a disability for discipline purposes. The district will be deemed to have had such knowledge if:

1. The student's parent expressed concern in writing to supervisory or administrative personnel, or to a teacher of the student that the student is in need of special education. Such expression may be oral if the parent does not know how to write or has a disability that prevents a written statement; or
2. The student's parent has requested an evaluation of the student; or
3. A teacher of the student or other school personnel has expressed specific concerns about a pattern of behavior demonstrated by the student, directly to the district's director of special education or other supervisory personnel.

Nonetheless, a student will not be considered a student presumed to have a disability for discipline purposes if notwithstanding the district's receipt of information supporting a claim that it had knowledge the student has a disability,

1. The student's parent has not allowed an evaluation of the student; or
2. The student's parent has refused services; or
3. The District conducted an evaluation of the student and determined that the student is not a student with a disability.

If there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors. However, if the district receives a request for an individual evaluation while the student is subjected to a disciplinary removal, the district will conduct an expedited evaluation of the student in accordance with applicable law and regulations. Until the expedited evaluation is completed, the student shall remain in the educational placement determined by the district which can include suspension.

J. Expedited Due Process Hearings

The district will arrange for an expedited due process hearing upon receipt of or filing of a due process complaint notice for such a hearing by:

1. The district to obtain an order of an impartial hearing officer placing a student with a disability in an IAES where school personnel maintain that it is dangerous for the student to be in his or her current educational placement;
2. The district during the pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in his or her current educational placement during such proceedings;
3. The student's parent regarding a determination that the student's behavior was not a manifestation of the student's disability; or
4. The student's parent relating to any decision regarding placement, including but not limited to any decision to place the student in an IAES.

The district will arrange for, and an impartial hearing officer will conduct, an expedited due process hearing in accordance with the procedures established in Commissioner's regulations. Those procedures include but are not limited to convening a resolution meeting, and initiating and completing the hearing within the timelines specified in those regulations.

When an expedited due process hearing has been requested because of a disciplinary change in placement, a manifestation determination, or because the district believes that maintaining the student in the current placement is likely to result in injury to the student or others, the student will remain in the IAES pending the decision of the impartial hearing officer or until the expiration of the period of removal, whichever occurs first unless the student's parent and the district agree otherwise.

K. Referral to Law Enforcement and Judicial Authorities

Consistent with its authority under applicable law and regulations, the district will report a crime committed by a student with a disability to appropriate law enforcement and judicial

authorities. In such an instance, The Superintendent will ensure that copies of the special education and disciplinary records of the student are transmitted for consideration to the appropriate authorities to whom the crime is reported, to the extent that the transmission is permitted by the Family Educational Rights and Privacy Act (FERPA).

XII. CORPORAL PUNISHMENT

Corporal punishment is any act of physical force upon a student for the purpose of punishing that student. Corporal punishment of any student by any District employee is strictly forbidden.

If possible, prior to a physical intervention with a student, a District employee trained in alternative procedures and/or de-escalation tactics (such as Therapeutic Crisis Intervention) will be contacted. In situations where alternative procedures and methods that do not involve the use of physical force cannot reasonably be used, reasonable physical force may be used to:

1. Protect oneself, another student, teacher or any person from physical injury.
2. Protect the property of the school or others.
3. Restrain or remove a student whose behavior interferes with the orderly exercise and performance of school functions, powers, and duties, if that student has refused to refrain from further disruptive acts.

The District will file all complaints about the use of corporal punishment with the Commissioner of Education in accordance with Commissioner's regulations.

XIII. STUDENT SEARCHES AND INTERROGATIONS

The Board is committed to ensuring an atmosphere on school property, at school functions, and in District-sponsored activities/trips that is safe and orderly. To achieve this kind of environment, any school official authorized to impose a disciplinary penalty on a student may question a student about an alleged violation of law or the District's Code. Students are not entitled to any sort of "Miranda" type warning before being questioned by school officials, nor are school officials required to contact a student's parent before questioning the student. Students do have the right to be told, upon request, why they are being questioned.

In addition, the Board authorizes the Superintendent, building Administrators, and other employees under the direct supervision of an Administrator to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the District's Code. An authorized school official may conduct a search of a student's belongings that is minimally intrusive, such as touching the outside of a back pack without reasonable suspicion, so long as the school official has a legitimate reason for the very limited search.

An authorized school official may further search a student or the student's belongings based upon information received from a reliable informant. Individuals, other than the District employees, will be considered reliable informants if they have previously supplied information that was accurate and verified, they make an admission against their own interest, they provide

the same information that is received independently from other sources, or they appear to be credible and the information they are communicating relates to an immediate threat to safety. District employees will be considered reliable informants.

Before searching a student or the student's belongings, the authorized school official should give the student the opportunity to admit that he/she possesses physical evidence that violates the law or the District's Code, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought.

Whenever practicable, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched. The administrator shall attempt to have a second school employee present at the search.

A. **Student Lockers, Desks, and Other School Storage Places**

The rules in this Code regarding searches of students and their belongings do not apply to student lockers, desks, and other school storage places. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks, and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent.

B. **Treatment of Cell Phones**

Teachers and administrators are authorized to confiscate student cell phones that are being used in violation of the code of conduct and/or policy 5695, Student Use of Electronic Devices. Teachers and administrators are permitted to look at the screen of the cell phone and can request the student's cooperation to search the cell phone further. Without a student's permission, teachers and administrators should not undertake a more extensive search until conferring with the Superintendent or school attorney for guidance.

C. **Documentation of Searches**

The authorized school official conducting the search shall be responsible for promptly recording the following information about each search:

1. Name, age and grade of student searched.
2. Reasons for the search.
3. Basis of information leading to search.
4. Purpose of search (that is, what item(s) were being sought).
5. Type and scope of search.
6. Person conducting search and his/her title and position.
7. Witnesses to the search.
8. Time and location of search.
9. Results of search (that is, what item(s) were found).
10. Disposition of items found.

11. Time, manner and results of parental notification.

The principal/designee shall be responsible for the custody, control and disposition of any illegal or dangerous item taken from a student. The principal/designee shall retain control of the items, unless the items are turned over to the police. The principal/designee shall be responsible for personally delivering dangerous or illegal items to police authorities. A student who refuses to cooperate with a search shall be deemed to be insubordinate and subject to appropriate penalties including suspension from school.

D. **Police Involvement in Searches and Interrogations of Students**

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving students only if they have:

1. A search or an arrest warrant; or
2. Probable cause to believe a crime has been committed on school property or at a school function.

Police may question student witnesses to any incident without parental consent. Before police officials are permitted to question or search any student suspected of committing a crime, the principal/ designee shall first notify the student's parent to give the parent the opportunity to be present during the police questioning or search. If the student's parent cannot be contacted prior to the police questioning or search, the questioning or search shall not be conducted, unless the student is 16 years of age or older. The principal/designee will also be present during any police questioning or search of a student on school property or at a school function. If the police officer determines there is enough evidence to arrest the student, that student may be removed from school premises by the police without parental consent.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

1. They must be informed of their legal rights.
2. They may remain silent if they so desire.
3. They may request the presence of an attorney.

E. **Child Protective Services Investigations**

Consistent with the District's commitment to keep students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the District will cooperate with local child protective services workers who wish to conduct interviews of students on school property relating to allegations of suspected child abuse, and/or neglect, or custody investigations.

All requests by child protective services to interview a student on school property shall be made directly to the principal. The principal shall set the time and place of the interview. The principal shall decide if it is necessary and appropriate for a school official to be present during the interview, depending on the age of the student being interviewed and the nature of the allegations. If the nature of the allegations is such that it may be necessary for the student to remove any of his/her clothing in order for the child protective services worker to verify the allegations, the school nurse or other District medical personnel must be present during that portion of the interview. No student may be required to remove his/her clothing in front of a child protective services worker or District official of the opposite sex.

A child protective services worker may not remove a student from school property without a court order unless the worker reasonably believes that the student would be subject to danger of abuse if he/she were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent's consent, after conferring with building administration.

XIV. VISITORS TO THE SCHOOLS

The Board encourages parents and other District citizens to visit the District's schools. Since schools are a place of work and learning, however, certain limits must be set for such visits. The principal is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the schools:

1. Anyone who is not a regular staff member, student of the school or member of the current Board of Education will be considered a "visitor."
2. All visitors to the school must report to the receptionist at the entrance upon arrival at the school. Photo proof of identification will be required. There they will be required to sign the visitor's register and will be issued a visitor's identification badge which must be worn at all times while in the school or on school grounds. The visitor must return the identification badge to the receptionist before leaving the building. The District reserves the right to limit access to our facilities based on security and safety reasons.
3. Visitors attending school functions that are open to the public, such as athletic or musical events, are not required to register.
4. Parents or citizens who wish to observe a classroom while school is in session are required to arrange such visits in advance with the classroom teacher(s), so that class disruption is kept to a minimum. Such visitations shall be allowed at the discretion of the teacher and Principal.
5. Teachers are expected not to take class time to discuss individual matters with visitors.

6. Any unauthorized person on school property will be reported to the principal. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.
7. All visitors are expected to abide by the rules for public conduct on school property contained in this Code.

XV. PUBLIC CONDUCT ON SCHOOL PROPERTY

The District is committed to providing an orderly, respectful environment that is conducive to learning. To create and maintain this kind of an environment, it is necessary to regulate public conduct on school property and at school functions. For purposes of this section of the Code, “public” shall mean all persons when on school property or attending a school function including students, teachers and District personnel.

The restrictions on public conduct on school property and at school functions contained in this Code are not intended to limit freedom of speech or peaceful assembly. The District recognizes that free inquiry and free expression are indispensable to the objectives of the District. The purpose of this Code is to maintain public order and prevent abuse of the rights of others. All persons on school property or attending a school function shall conduct themselves in a respectful and orderly manner. In addition, all persons on school property or attending a school function are expected to be properly attired for the purpose they are on school property.

A. Prohibited Conduct

No person, either alone or with others, shall:

1. Intentionally injure any person or threaten to do so.
2. Intentionally damage or remove school property.
3. Disrupt the orderly conduct of classes, school programs or other school activities.
4. Distribute or wear materials on school ground or at school functions that are obscene, advocate illegal action, appear libelous, violate the rights of others, or are disruptive to the educational environment.
5. Intimidate, harass, or discriminate against any person on the basis of race, color, nationality, religion, age, sex, sexual orientation or disability.
6. Enter any portion of the school premises without authorization or remain in any building or facility after it is normally closed.
7. Obstruct the free movement of any person in any place to which this Code applies.
8. Violate the traffic laws, parking regulations or other restrictions on vehicles.
9. Possess, consume, sell, offer, manufacture, distribute or exchange alcoholic beverages, controlled substances, or synthetic versions thereof (whether or not specifically illegal or labeled for human consumption), or be under the influence of either on school property or at a school function.
10. Possess or use firearms or other weapons including air guns, pistols, rifles, shotguns, ammunition, explosives, box cutters, knives, gas canisters, pepper spray or other noxious spray in or on school property or at a school function, except in the case of law enforcement officers or except as specifically authorized by the District.

11. Possessing, using, consuming, selling, distributed or exchanging tobacco products, including cigarettes, pipes, chewing tobacco, snuff, herbal tobacco products, simulated tobacco products that imitate or mimic tobacco products, e-cigarettes, vapes, cloves, bidis and kreteks as well as matches and lighters.
12. Loiter on or about school property.
13. Gamble on school property or at school functions. (Refer to Board of Education Policy #5152 Fund Raising).
14. Refuse to comply with any lawful order of identifiable school officials performing their duties.
15. Willfully incite others to commit any of the acts prohibited by this Code.
16. Violate any federal or state statute, local ordinance or Board policy while on school property or while at a school function.

B. Penalties

Persons who violate this Code shall be subject to the following penalties:

1. Visitors: Their authorization, if any, to remain on school grounds or at the school function shall be withdrawn and they shall be directed to leave the premises. If they refuse to leave, they shall be considered trespassing and subject to ejection.
2. Students: They shall be subject to immediate ejection and to disciplinary action as the facts may warrant, including any of the penalties listed in the “Penalties” section of this Code, in accordance with the due process of law requirements.
3. Tenured faculty members: They shall be subject to immediate ejection and to disciplinary action as the facts may warrant in accordance with Education Law § 3020-a or any other legal rights that they may have.
4. Staff members in the classified service of the civil service entitled to the protection of Civil Service Law § 75: They shall be subject to immediate ejection and to disciplinary action as the facts may warrant in accordance with Civil Service Law § 75 or any other legal rights that they may have.
5. Staff members other than those described in subdivisions 3 and 4: They shall be subject to immediate ejection and to warning, reprimand, suspension or dismissal as the facts may warrant in accordance with any legal rights they may have.

C. Enforcement

The principal/designee shall be responsible for enforcing the conduct required by this Code. The principal/designee may designate the other District staff who are authorized to take action consistent with the Code.

When the principal/designee or his/her designee sees an individual engaged in prohibited conduct, which in his/her judgment does not pose any immediate threat of injury to persons or property, the designated school official shall tell the individual that the conduct is prohibited and direct the individual to stop. The school official shall also warn the individual of the consequences for failing to stop. If the person refuses to stop engaging in the prohibited conduct, or if the person’s conduct poses an immediate threat of injury to persons or property, the

designated school official shall have the individual removed immediately from school property or the school function. If necessary, local law enforcement authorities will be contacted to assist in removing the person.

The District shall initiate disciplinary action against any student or staff member, as appropriate, with the “Penalties” section above. In addition, the District reserves its right to pursue a civil or criminal legal action against any person violating the Code.

XVI. DISSEMINATION AND REVIEW

A. Dissemination

The Board will work to ensure community awareness of this Code by:

1. Providing copies of a summary of the Code to all students in an age-appropriate, plain language version at a general school assembly held at the beginning of each school year, and through building handbooks as appropriate.
2. Making copies of the Code available to parents at the beginning of the school year. Providing a summary of the Code of Conduct to all parents of District students before the beginning of each school year and making this summary available later upon request.
3. Providing all current teachers and other staff members with a copy of the Code and a copy of any amendments to the Code as soon as practicable after adoption.
4. Providing all new employees with a copy of the current Code when they are first hired.
5. Making copies of the Code available for review by students, parents, and other community members as well as maintain a copy on the District website.

On an annual basis, the Code will be publicized and explained to all students and will be available in writing to parents and/or guardians of students. A copy of the Code will be filed in each school building, where it will be available for review by any individual upon request.

B. Review

The Board of Education will review this Code every year and update it as necessary. In conducting the review, the Board will consider how effective the Code’s provisions have been and whether the Code has been administered fairly and consistently. The Board may appoint an advisory committee to assist in reviewing the Code and the District’s response to Code violations. The committee will comprise representatives of student, teacher, Administrator, and parent organizations, school safety personnel and other school personnel.

Before the Board reapproves any updates to the Code, the Board will hold at least one public hearing at which school personnel, parents, students, and any other interested party may participate. The Code and any amendments to it will be filed with the Commissioner of Education no later than 30 days after adoption.
