

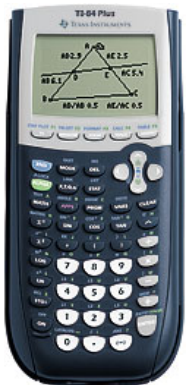

GRAPHING CALCULATORS

*The pictures below show the different acceptable calculators that will be required for Algebra I students (and future math courses).

*Calculators may be purchased at: Walmart, Target, K-Mart, Office Max, Staples, or on-line. www.TI.com

*We suggest that you purchase these in early August to be able to take advantage of the back to school sales. However, be aware that several stores sell out as the first day of school approaches.

TI – 84 Plus

- User-friendly

TI – 84 Plus Silver

- User-friendly

TI – 84 Plus C Silver

- Graphs in color
- Rechargeable
