

## Odds-n-Ends

Creative expression through art is an important aspect of our UPK program. It allows the children to explore various mediums while developing; fine motor skills, spatial awareness, following directions, and creative expression. Often, concepts covered in the areas of Language Arts, Math, Science, or Social Studies are incorporated into art projects. In helping to keep our supplies stocked we are asking for you to keep an "eye" out for surplus items you may already have at home. While they may seem useless to you-they may be valuable to us! Here's a list to get you started on your "Treasure Hunt". We will be collecting and using items all throughout the year. Thank you!

**Please send in anything which you feel may be of benefit-even if it is not on the list.**
